Working with CTL

About the Center for Technology Licensing (CTL)

CTL is Cornell University's technology transfer office. We manage Cornell technologies from Cornell's Ithaca campus, Weill Cornell Medical Colleges, Cornell Tech and the New York State Agricultural Experiment Station in Geneva.

Cornell Products

The following are products that are currently on the market based on licensed Cornell technology.

- Congenital Stationary Night Blindness (CSNB) Test
- Professor Gregory Acland
- Baker Institute for Animal Health

Current Featured Technologies

- Red Wine Grace ‘Arandel’
- Tethered Enzyme Technology (TET™) Point-of-Care Testing for Brain Injuries
- Advanced Materials for Rechargeable Batteries
- Generic Programmable Tag
Industry Collaborations - Centers

Cornell NanoScale Science and Technology Facility

Interface Materials —by Design!
